

Following the video introductions to the case studies you have seen, please use the case studies as well as your own research and knowledge to answer the questions posed, and prepare a presentation of your answers.

Please be prepared to answer questions after your presentation and discuss it with the wider group.

## Your task:

Prepare a 15 minute presentation. Everyone in the group should take part in the preparation and delivery of the presentation.

### The questions:

(Please answer each question on separate slides, you can rearrange them to help with the flow of your presentation if you wish)

- What are the applications?
- What are the potential positive outcomes and for whom?
- What are the potential negative outcomes and for whom?
- Who are the stakeholders?
- Are the outcomes transformational or incremental and for whom?
- What alternative applications are there? (civil, military)
- Are other innovations required to realise the outcomes?
- Do we need controls or regulations?
- What is the Technology Readiness Level (TRL)?
- What Sustainable Development Goals (SDGs) are impacted?
- What RRI Intensity Level applies (RIL)?

### Please note:

You will be asked to provide feedback to your peers and will in turn receive feedback from them as well as the ORBIT trainers. Please make the presentations as professional, engaging and interesting as possible as feedback will include these points.

You might be asked to provide a copy of your presentation if this is required by your CDT Manager.
